PROBLEM STATEMENT

After completing secondary higher education there are lot of career option a student can take. Students are really confused about which college they can join or which course they can take. Parents are also worried about the future of their children. They have to go through many sites to get the information regarding course fee structure , placement rate and many more things about college.

TECHNOLOGY USED

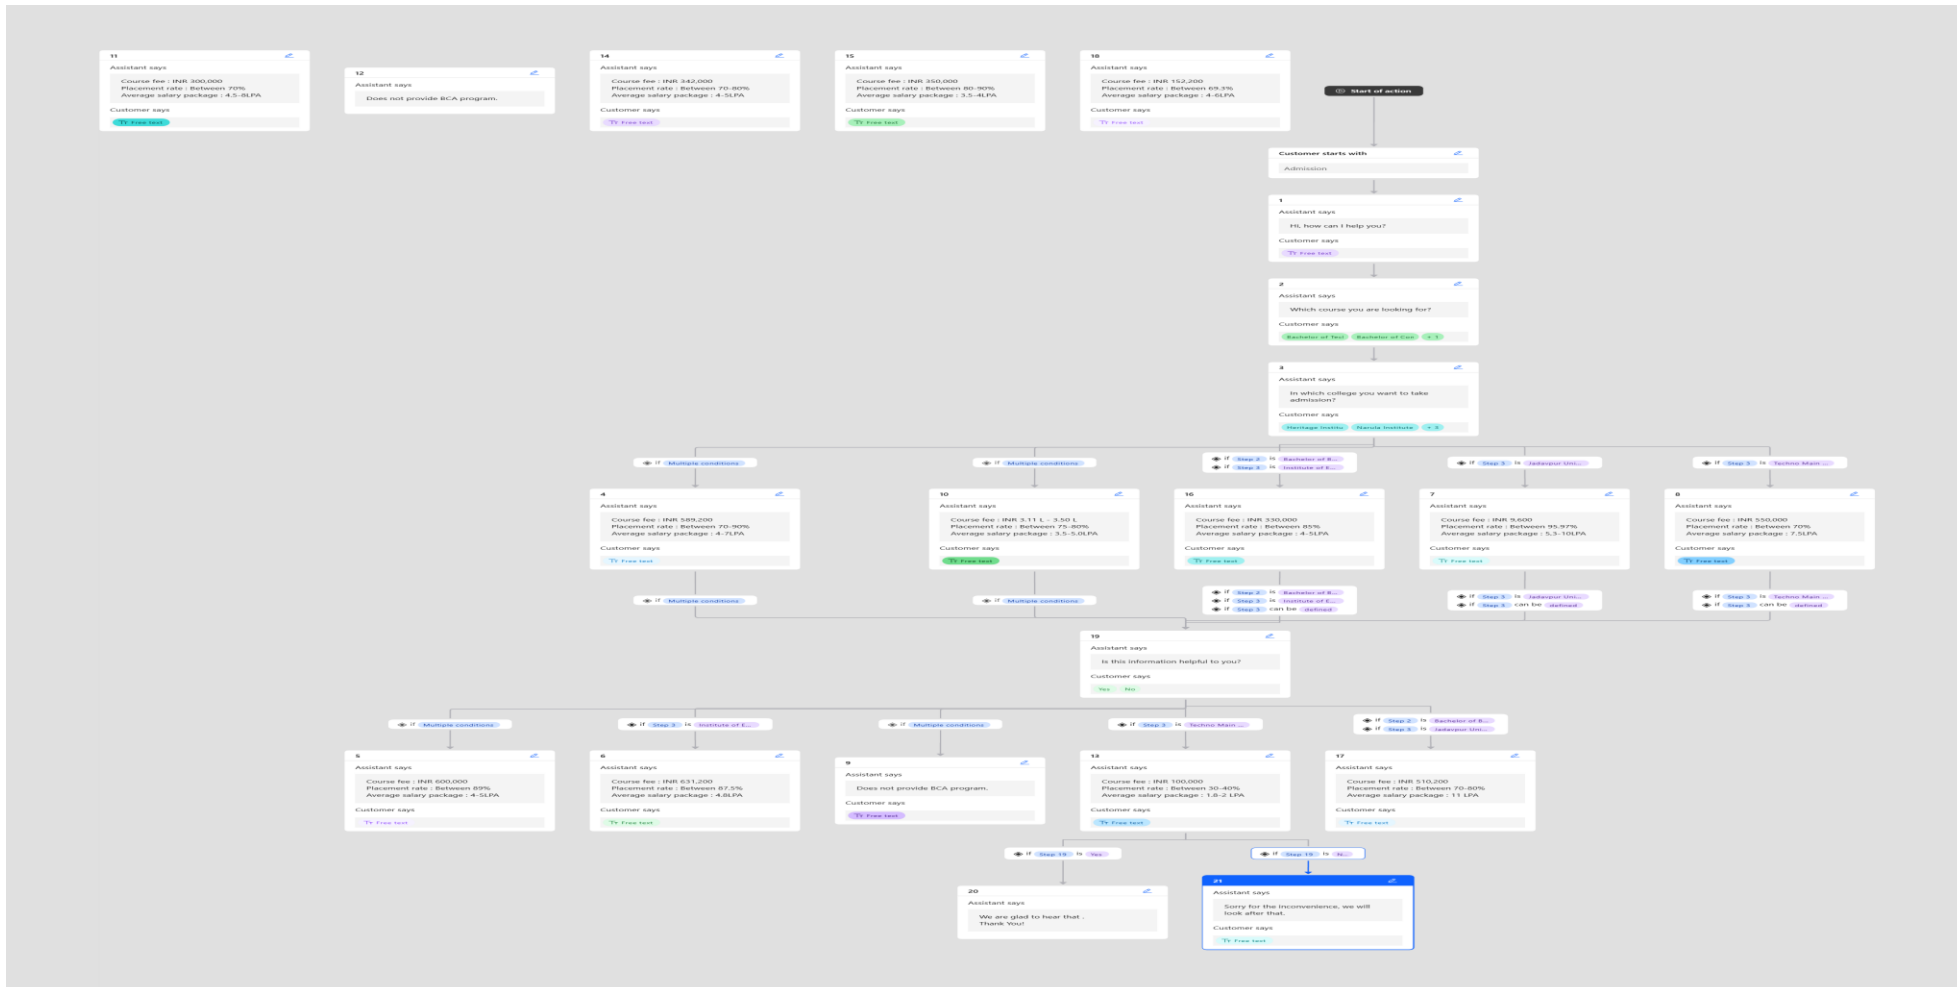

IBM Cloud

IBM CLOUD SERVICES USED

Watsonx Assistant Service

WOW FACTORS

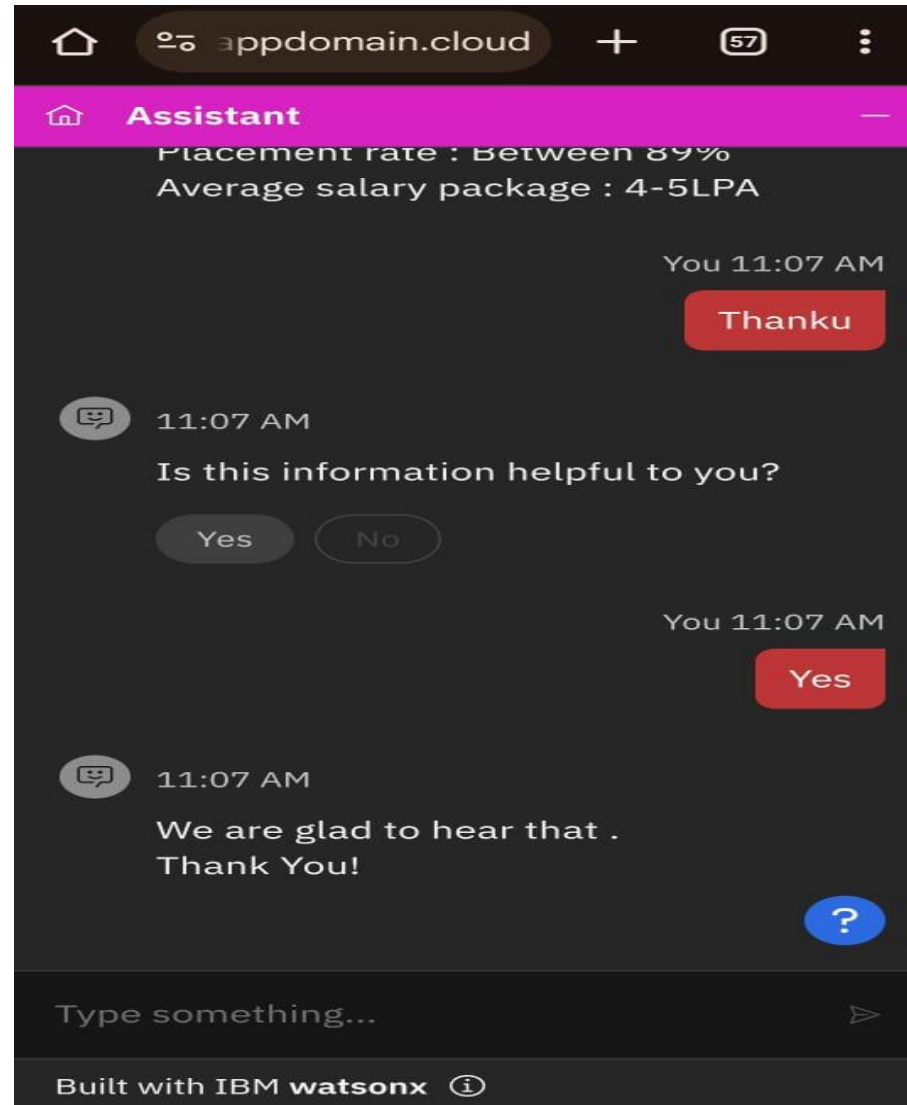

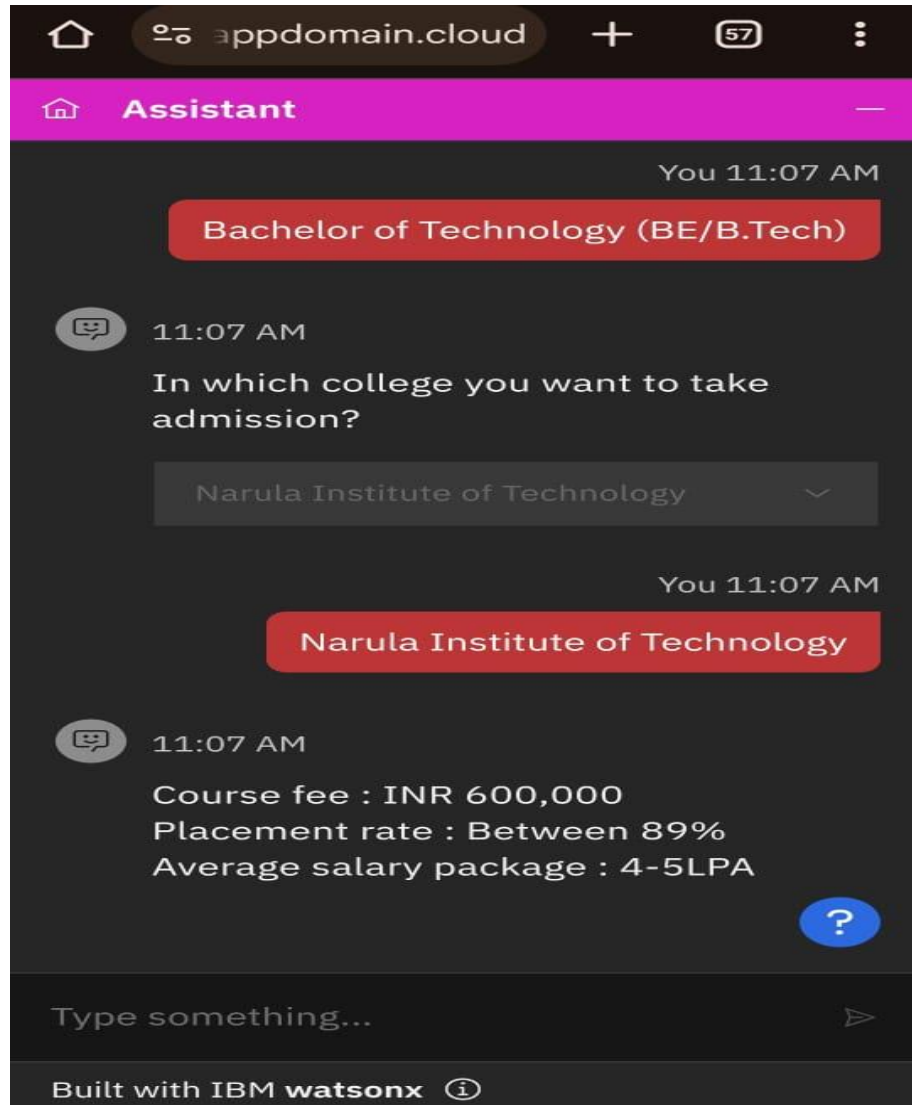

Wow!

You can now select the course and from which college you want to complete this course to know the basic information about the college.

END USERS

- . Parents
- . Students
- . College Administrative Officers

RESULTS

CONCLUSION

This Educational Bot is solving the problem of students and parents about getting the information of any college. This is providing course fee structure , Placement rate and Average salary package of a different courses of a particular College . This helps them to save time during the process. They can easily compare between different colleges and select the best among them.
